The people of the State of California do enact as follows:

SECTION 1. Section 1506 of the Health and Safety Code is amended to read:

1506. (a) (1) Any holder of a valid license issued by the department that authorizes the licensee to engage in foster family agency functions, may use only a certified family home that has been certified by that agency or a licensed foster family home approved for this use by the licensing county pursuant to Section 1506.5.

(2) Any home selected and certified for the reception and care of children by that licensee shall not, during the time it is certified and used only by that agency for these placements or care, be subject to Section 1508. A certified family home may not be concurrently licensed as a foster family home or as any other licensed residential facility.

(3) A child with a developmental disability who is placed in a certified family home by a foster family agency that is operating under agreement with the regional center responsible for that child may remain in the certified family home after the age of 18 years. The determination regarding whether and how long he or she may remain as a resident after the age of 18 years shall be made through the agreement of all parties involved, including the resident, the foster parent, the foster family agency social worker, the resident's regional center case manager, and the resident's parent, legal guardian, or conservator, as appropriate. This determination shall include a needs and service plan that contains an assessment of the child's needs to ensure continued compatibility with the other children in placement. The needs and service plan shall be completed no more than six months prior to the child's 18th birthday. The assessment shall be documented and maintained in the child's file with the foster family agency.

(b) (1) A foster family agency shall certify to the department that the home has met the department's licensing standards. A foster family agency may require a family home to meet additional standards or be compatible with its treatment approach.

(2) The foster family agency shall issue a certificate of approval to the certified family home upon its determination that it has met the standards established by the department and before the placement of any child in the home. The certificate shall be valid

1 for a period not to exceed one year. The annual recertification shall
2 require a certified family home to complete at least 12 hours of
3 structured applicable training or continuing education. At least
4 one hour of training during the first six months following initial
5 certification shall be dedicated to meeting the requirements of
6 paragraph (1) of subdivision (b) of Section 11174.1 of the Penal
7 Code.

8 (3) If the agency determines that the home no longer meets the
9 standards, it shall notify the department and the local placing
10 agency.

11 (c) The department shall develop licensing regulations
12 differentiating between foster family agencies that provide
13 treatment of children in foster families and those that provide
14 nontreatment services.

15 (d) As used in this chapter, “certified family home” means a
